Highly creative Frontend Engineer with 3 years of experience collaborating with diverse and talented teams to deliver cutting-edge web projects. Proven ability to seamlessly blend design with technical excellence.

TECHNICAL SKILLS

Languages: JavaScript/TypeScript.

Frontend: HTML, CSS, React, NextJs, Vue, NuxtJs, Tailwind Css, Material UI.

Tooling: Git, Github Action, Cypress.

Others: REST API, Graphql, Firebase, Figma.

SOFT SKILLS

Time Management, Effective Communication, Teamwork, Self-organisation, Problem Solving, Critical Thinking, Attention to Detail.

PROFESSIONAL EXPERIENCE

3RM - San Francisco Bay Area, USA *(remote)*   *November 2022 - May 2023*
Frontend Engineer

- Collaborated closely with the backend, design, and product teams at 3RM in the successful development of a cutting-edge web3 relationship manager, fostering efficient communication and organisational excellence within the company.
- Developed and maintained flawless integration of Telegram, into the company's website, introducing key features such as Telegram syncing, follow-up assignment, and conversation tracking.
- Ensured exceptional user experience by implementing responsive design techniques, ensuring cross-browser compatibility, and optimising mobile responsiveness.
- Teamed up closely with the design team at 3RM to transform mockups and wireframes into well polished, functional web pages, ensuring a seamless and visually appealing user experience.
- Optimised website performance through the application of advanced code optimization techniques and leveraging caching mechanisms, resulting in faster load times and improved overall user experience.
- Demonstrated remarkable efficiency and time management skills in a fully remote role, showcasing the ability to work autonomously and deliver high-quality results without the need for micro-management.

Metadapp - Lagos, Nigeria   *September 2021 - March 2023*
Frontend Developer

- Led the development and successful implementation of critical features such as Risk Management, Portfolio Management, Referral System, and Revoke Approval within the Metadapp web3 application.
- Collaborated closely with the design, product, and backend teams to oversee and maintain the Metadapp web3 dashboard ensuring a seamless user experience and effective presentation of information.

- Integrated GraphQL APIs and various third-party services and web3 APIs elevating website functionality and enabling efficient data retrieval. Thereby enhancing overall user engagement.
- Conducted rigorous testing and debugging protocols, swiftly identifying and resolving frontend codebase issues to ensure a resilient and error-free application.
- Worked closely with the customer success team, triaging, troubleshooting, and promptly resolving customer-facing issues. Provided technical support, guidance, and implemented effective solutions to maintain a high standard of customer satisfaction.
- Enhanced developer experience and code readability through eliminating redundancy, simplifying, and introducing reusable components for improved clarity and efficiency.

Xigma - Benin city, Nigeria   *April 2021 - July 2021*
Frontend Developer Intern

- Designed and developed the Xigma solar service website, contributing to its design and functionality to enhance user engagement and promote solar services effectively.
- Teamed up with the product team to design and refine the mobile interface. Ensured a seamless, user-friendly and visually appealing experience for mobile users accessing the Xigma solar service.
- Exhibited leadership qualities by initiating and leading a training program for a cohort of 10 interns, delivering a comprehensive introduction to frontend development. This endeavour contributed to fostering a collaborative learning environment and skill development within the team.

EDUCATION

University of Benin, Edo state, Nigeria   *January 2018 - December 2022*
Bachelor of Computer Science

- Relevant coursework: Introduction to Data Structures and Algorithms, Object Oriented Programming, Computer Architecture, Software Development lifecycle, Compiler Construction.
